

Are you in need of extra support to manage your roaming business? How are you ensuring constant high-quality service for your subscribers?

Syniverse Managed LTE Roaming Services

As an operator, you understand the need to deliver a ubiquitous, high-quality service to your subscribers at all times, whether they're home or roaming. However, the process of partnering with other operators around the world can be costly and time consuming.

Syniverse Managed LTE Roaming Services – Gain Management provides remote or on-site support with staff who are experienced in GSMA standards, to efficiently manage the preparation, testing, and launching of your 2G, 3G, CAMEL, LTE and VoLTE roaming businesses. Our Gain Management service can handle anything from facilitating International Roaming Agreement negotiations, coordination, IREG and TADIG testing, SIM management, network configuration and troubleshooting, to post-launch validation testing.

Our global presence includes operation teams in six countries, spread across four continents and our team of experts completed over 3000+ commercial service launches in the last 12 months.

Syniverse®

We make mobile work

CAMEL and LTE Readiness

- Network signaling and network changes
- Technology-neutral agreement
- Obtain LTE handsets
- Provision SIM cards
- AA.14 updates
- Network testing to ensure the services works
- Test with domestic and international roaming partners

Whether operators choose to deploy LTE, CAMEL, data, or voice, Gain Management can offer a comprehensive methodology for end-to-end testing

Benefits

- Obtain access to the heritage, knowledge and expertise that defines Syniverse to optimize your roaming business through rapid connectivity, propelling revenue
- Effectively grow your inbound and outbound roaming revenues
- Minimize delays associated with new technologies such as CAMEL, LTE and VoLTE by delegating challenges to dedicated industry experts
- Build your roaming footprint quickly
- Free up your resources to focus on high priority activity

Features

- Provides you with an established infrastructure for short term staff augmentation and deep expertise in GSM, GPRS, CAMEL, 3G, LTE, and VoLTE roaming testing
- Handles full end-to-end testing with global remote probes and automated testing tools for IREG and TADIG
- Uses industry award winning best practice processes and tools
- Offers flexible reporting, prioritization, and communications options with regular status updates
- Regional operations teams align with customer business hours

Get Started Today!

Syniverse is a global mobile solutions specialist that connects more than 1,500 mobile service providers and consumer companies in nearly 200 countries. We specialize in enabling the world's mobile users to connect with each other regardless of device, network or location. Our advanced cloud-based solutions deliver superior user experiences through always-on services and real-time engagement. For more than 25 years, we have been simplifying complexity to deliver the promise of mobility – a simple, interoperable experience, anytime, anywhere.
