

Is your roaming business
protected from fraud attacks?

Syniverse Roaming Fraud Service

Fraud has become a highly organized business, with mobile operators around the globe feeling its negative impact. Roaming fraud can be particularly damaging since it can result in direct costs to a home operator. Moreover, since fraud attacks are often repeated across different operators and in different parts of the world, the ability to identify these fraud trends becomes even more crucial to limit losses.

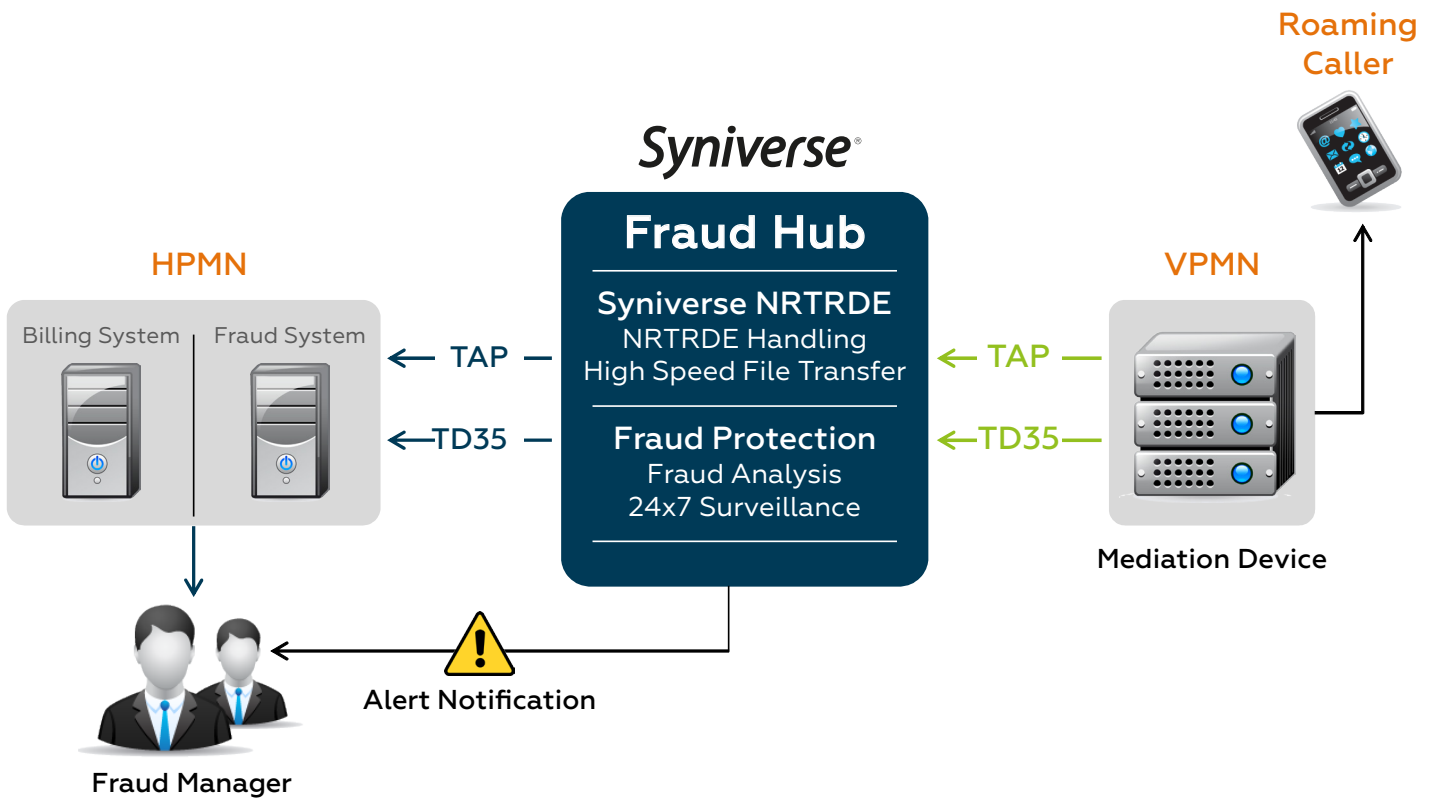

Syniverse Roaming Fraud Service offers two services that help ensure that you can quickly recognize fraud to protect your business.

1. **Global Roaming Surveillance** - Our fraud analysts provide 24/7 global surveillance, utilizing the information collected from profiling, advanced analysis and global intelligence to quickly recognize fraud patterns.
2. **NRTRDE** - We create, handle and validate all your NRTRDE (near-real-time roaming data exchange) files in full compliance with GSMA requirements. As the world's biggest NRTRDE hub, we guarantee reliability, speed and ease of data exchange.

Syniverse[®]

We make mobile work

Benefits

- Protects your revenues and brand reputation while delivering a competitive advantage by quickly detecting fraud and taking action to resolve it
- Uses a cloud-based service to shorten time to market to days rather than months
- Increases revenue by eliminating roaming service availability limitations and making roaming more secure
- Improves the customer experience by using an accumulated understanding of fraud trends to only identify actual fraud incidents rather than “false positives”
- Minimizes capital expenses with a cost-efficient managed service that leverages a fixed fee, independent from traffic growth

Syniverse®

We make mobile work

Features

- Provides a global view that allows for the detection of fraud patterns through centralized data gathering and analysis
- Uses detection methods that continually evolve based on the latest fraud trends
- Delivers dependable service managed 24/7 by fraud experts with access to our fraud hotline and online portal
- Enables alerts and detailed cases to be sent to you quickly through your preferred media
- Delivers fraud-related roaming information within four hours through our market-leading NRTRDE hub
- Is compliant with all GSMA guidelines
